

POWERSTRIP Power Distribution Unit

DESCRIPTION

Purpose built for 19" racking technology, the POWERSTRIP provides uninterrupted view of total current consumed by the equipments connected to the sockets in the PDU. With design simplicity and enhanced safety these PDUs is a must have in every rack in the datacenters.

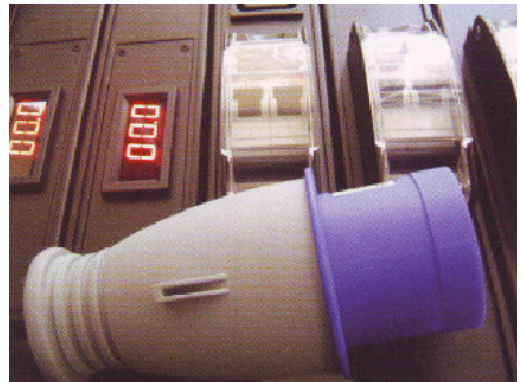

FEATURES

- Using robust aluminum extrusion enclosure
- Multiple mounting methods
- Superior grade components
- Different socket types UK 13A, 15A; IEC 1 OA. 16A
- 13A, 16A & 32A ratings
- Digital Ammeter Display option
- MCB single Pole or Double Pole option
- Earthing connect feature

BENEFITS

- Modular and Scaleable (1-30 outlets)
- Easy to install
- Reliable connectivity
- Built in safety features
- Uninterrupted power to equipment even if Ammeter Display fails
- Hot swap replacement of Ammeter Display during failure

SPECIFICATIONS

- Input Type : UK 3-pin, IEC 60309 16A, 32A plugs
- Outlet Type: UK BS 1363 (13A), BS 546 (15A); IEC 60320 C13 (10A), C19 (16A)
- Protection : MCB
- Local Meter: True RMS Digital Ammeter
- Ratings: Up to 32A, 240Vac
